RE: Rescission of Previous Correspondence Regarding Master Box Removal

To Whom It May Concern:

This correspondence is to inform you that the Springfield Fire Department letter regarding "Existing Master Box Status" that was sent to you, dated October 21, 2010, should be disregarded, as that letter, its entire contents, and the attached invoice are hereby rescinded, effective immediately.

In accordance with Massachusetts State Fire and Building Codes, you may install any fire monitoring system allowable under 780 CMR Section 907.14.3, and may remove any existing Master Box system upon application for and issuance of a permit from the Springfield Fire Department. Should you wish to disconnect and remove the existing Master Box located at your property, the Springfield Fire Department will issue a permit for said work upon receipt of an application.

I apologize for any confusion the previous letter may have caused; please feel free to contact my office with any additional questions or concerns. Thank you for your time and understanding in this matter.

Sincerely,

Captain David Rivera
Springfield Fire Department
