

Starting Friday, October 2nd, some Companies may have received a new license (A 1 Business) in the mail from the Commonwealth of Massachusetts, Division of Professional License: Board of Electricians.

Moving forward, this A 1 License will replace your Companies, A License (Masters) or C License (Systems Contractors) that is currently attached to your Business.

At this time, there has been no set date that the A 1 License will supersede the A or C License. Until then, the A, B, C or A 1 Licenses can be used to pull permits and as always, B and D Licenses should be carried by each Licensed Individual at all times.

We believe the Board of Electricians made this change to ensure that when complaints are being filed and penalties are being issued against Companies, they remain with Company on their permanent record and not only the Licensed individuals record.

Also, if you are the A or C License Holder for your company, we believe that when you renew your License for the 2022 – 2025 Renewal Cycle your A or C License will be converted back to your Individual Name and no longer list your Companies Name.

As an Association, we are still learning about this current change and will keep you posted

as more information becomes available.
